
Highrise Consulting, Inc. (www.highriseconsulting.com) is seeking Information Security Engineer to work onsite full time at NIH (National Institutes of Health) facility in Bethesda, MD (Rockledge Drive Campus). To apply, send resume to Roman Tokman - rtokman@highriseconsulting.com - please include ["Information Security Engineer Job in quotes"] as a subject of your email.

Referral Bonus: \$2000 (candidate must be continuously employed with Highrise for 3 months).

Responsibilities

- Perform network, web application, physical security reviews, social engineering tests, and other related security projects
- Work closely with the security team to understand goals, determine security requirements, to design, and implement infrastructure and data security solutions
- Responsible for assisting others in interpreting, understanding, and applying information security policies and standards to mitigate information security risks
- Identify, develop, and document security issues and recommendations using independent judgment concerning areas being reviewed
- Responsible for communicating information, suggestions, and/or problems regarding project status and critical findings
- Assess threat advisories to determine vulnerability and impact to the enterprise
- Generate and maintain dashboards, reports, and profiles to track the overall security health and status of the eRA

Qualifications

- 8+ years of Information Security experience
- Expert level knowledge of information security policies, controls, and processes as well as infrastructure (networks, servers), databases, and Internet technologies.
- Hands-on expertise operating in an AWS environment with mastery of architecture and security capabilities in the cloud
- Knowledge of information security control practices and frameworks (e.g., CIS CSC, OWASP, NIST, FISMA)
- Experience collaborating with auditors to assess security implementations
- Knowledge of IT environments, information security, privacy, and threat and vulnerability management.
- Technical writing skills to develop security documentation
- Excellent organizational, analytical and problem-solving abilities

Education:

- Bachelor's degree or equivalent work experience
- Security certifications (CISSP, CEH, etc...)
- Knowledge of Grants Management and Health Care related support activities, processes, and regulations are preferred

Clearance: Must be able to obtain a Public Trust
